## PROFESSIONAL SUMMARY

Full-stack engineer skilled in JavaScript, TypeScript, React.js, and Node.js, building scalable REST APIs and optimized databases, with proven results across internships, national hackathons, and production-grade projects.

## EDUCATION

VIT Bhopal University — B.Tech, Computer Science & Engineering

2023 – 2027

CGPA: 8.74 / 10.00 Coursework: DSA, OOP, DBMS, Web Technologies, Computer Networks, OS, Software Engineering

## TECHNICAL SKILLS

|               |                                                                            |
|---------------|----------------------------------------------------------------------------|
| Languages     | JavaScript, TypeScript, Java, Python, C++, SQL, HTML5, CSS3                |
| Frameworks    | React.js, Node.js, Express.js, Bootstrap, REST API, JDBC, Spring Boot      |
| Databases     | MongoDB, MySQL, SQLite, Database Optimization, Indexing, 3NF Normalization |
| Methodologies | Git, GitHub, Postman, VS Code, Linux, OOP, SOLID, SDLC, Agile, Code Review |

## EXPERIENCE

MPOne Limited — Software Engineering Intern | Virtual

May 2026 – Present

- Enforced **3NF normalization** via custom SQL scripts across **6+ relational tables**, improving query execution performance by **18%** under simulation load tests.
- Refactored **3 legacy OOP modules** following SOLID design principles, reducing redundant declarations by **22%** and improving maintainability across the codebase.

SmartInternz — ServiceNow Administration Intern | Remote, AICTE

May 2026 – June 2026

- Automated workflows across **4 business silos** using Flow Designer, reducing manual process friction by **35%** and cutting average task completion time by **2+ hours/week**.
- Built **25+ ATF automated test scripts**, improving functional test coverage by **40%** and enforcing production-level quality standards across **3 service modules**.

## PROJECTS

RebadgeOnboard — HR Onboarding Automation Engine | [Live Demo](#)

Apr 2026

- Architected a full-stack enterprise HR platform integrating async **Gemini Flash LLM** workers to automate intelligent parsing of **150+ employee profiles** simultaneously.
- Engineered RESTful backend with client-side state caching sustaining **10,000+ concurrent sessions** with zero performance degradation under peak load.
- Won **2nd Place** among **100+ national teams** at Glitch the System Hackathon, DELVE'26 (Aryabhatta College, University of Delhi).

AegisGuard — Web Application Firewall | [GitHub](#)

Mar – Apr 2026

- Designed a **5-stage** inline reverse-proxy middleware pipeline (rate limiting at **100 req/min**, bot detection, payload classification, geo-fencing, IP auto-banning) blocking **4 attack vectors**.
- Built REST API backend with MongoDB for persistent threat logging and React.js dashboard for real-time analytics across **100+ simulated attack scenarios**.
- Ranked 5th / 1,400+** nationally at National Cloud Innovation Challenge (Unstoppable x 3SVK, Apr 2026).

Movie Catalog ETL Pipeline | [GitHub](#)

May 2026

- Built an end-to-end ETL pipeline processing **50+ records** across **11 attributes** — extraction, transformation (profit, ROI, budget categorization), and SQLite loading with **reusable SQL views**.
- Delivered **6 structured SQL analytics queries** and **5 data visualizations** demonstrating database design, indexing, and query optimization skills.
- Implemented **3 reusable SQL views** and a **normalized SQLite schema** across **4 relational tables**, reducing query redundancy by **30%** and enabling modular analytics across all downstream reporting queries.

## CERTIFICATIONS

- Microsoft Azure Developer Associate (AZ-204)** | Microsoft
- JPMorgan Chase — Software Engineering Job Simulation** | Forage | May 2026
- Google AI Professional Certificate** | Google | Feb 2026
- Introduction to Machine Learning** | NPTEL — IIT Madras | Apr 2025 | ID: NPTEL25CS46S450600573
