CAREER OBJECTIVE

Motivated Computer Science student belonging to VIT Bhopal University with a strong academic record (**CGPA: 8.63**) and a solid foundation in problem solving, algorithms, and modern software technologies. Passionate about building efficient and impactful technological solutions while continuously learning and improving technical skills. Seeking opportunities to contribute to innovative projects, gain practical experience, and grow as a software engineer in a challenging and collaborative environment.

EDUCATION

VIT BHOPAL UNIVERSITY

Bachelor of Technology in Computer Science

2023 – 2027

CGPA: 8.63

MONTFORT INTER COLLEGE

Senior Secondary Education (Class XII)

2023

India

- **Class XII Percentage: 92%** | **Class X Percentage: 91.8%** | **Stream:** Science (PCM)

TECHNICAL SKILLS

Programming Languages: C++, Python, JavaScript

Core Computer Science: Data Structures & Algorithms, Object-Oriented Programming, Problem Solving

Web Development: HTML, CSS, JavaScript

Tools: Git, GitHub

PROJECTS

Machine Learning Based Weather Forecasting System

- Developed a machine learning system to predict weather conditions such as temperature, humidity, and rainfall using historical weather datasets.
- Applied regression and classification algorithms for forecasting and rain prediction.
- Performed data preprocessing and model training using Python libraries such as Pandas, NumPy, and Scikit-learn.

Asbestos Detection and Mitigation System

- Worked on a research project focused on detecting hazardous asbestos fibers using computer vision techniques.
- Implemented the YOLOv8 object detection model to identify asbestos fibers from microscope images.
- Evaluated model performance using metrics such as Precision, Recall, and Mean Average Precision (mAP).

CERTIFICATIONS

- NPTEL – Introduction to Machine Learning
- MathWorks MATLAB Certification
- Google AI Professional Certificate
- Google AI Essentials
